

## Catalogue of Books Offered By Rails-N-Shafts

**Please Note:** Nearly every book we offer is new old stock. We do not sell ex-library, previously read, or used books. Many are still in wraps if originally issued that way. Most are in exceptional, like-new condition. A very small number of these books were taken to train shows by Paul when he was "on the train show circuit", so a very small number of books may have small chips to their dustjacket or similar imperfections. If you need a title in absolutely like-new condition, please check with us first and we can give you a comprehensive idea of condition.

**We are still in the process of adding titles and pricing. If a book is not priced, we simply have not priced it yet! Please call and tell us which book(s) you are interested in and we will quote you a price. If we do not answer the telephone, please leave us a message and we will return it.**
